## DA678-0 Spotting Scope Accessories

日本の  
技  
March

**By attaching accessories to March Scope, you can use your rifle scope as a spotting scope !!**

*New for 2020*

You can easily adjust the position of the eyepiece to your desired eye relief.

Scope is attachable with a mount ring corresponding to picatinny rail. Includes tripod screws attachable to tripod on the market.

By zooming, you can achieve a wide view (at lower magnification) and also confirm the point of impact (at higher magnification).

The reticle of the rifle scope will aid to correct the point of impact.
